All the stakeholders in the education process of a child, i.e. the students, parents, teachers, school management and the society at large understand that the children are best educated in the safe, healthy and educationally nurturing environment of a school. In order that our children should be able to attend the school uninterrupted, we must play our role in combating the Corona virus intelligently and help in bringing an end to the pandemic

We know that the Corona virus in the form of all its variants is thriving only in the human population, by getting transmitted from one to the other human body. Only a self-responsible behavior of the humans can eradicate it from the face of the Earth. **The mantra for the same is wearing mask, maintaining distance and taking the vaccination, and acting responsibly with a commitment that neither we get infected nor we spread it.**

I request you to get yourself vaccinated if you haven't done it till now, and get your wards in the age group 15 – 18 years also vaccinated and play your responsible role in the fight against Corona virus. Stay safe, stay healthy!

We will open the school for Offline classes in all earnestness, as soon as the State Govt. allows us. Till then make your wards attend the online classes without fail.

Looking forward to your wholehearted cooperation.

Educationally yours

Jaswinder Kaur Sidhu  
Principal
