

DAV PUBLIC SCHOOL
BRS NAGAR, LUDHIANA

Dear Parents
Namaskar!

As your child approaches Class IX, it's time to think about their future career paths and interests. As per our school's curriculum, students will have the opportunity to choose a skill subject in Class IX. This is an exciting opportunity for students to explore their passions and develop skills that will benefit them in the long run.

Benefits of Opting for a Skill Subject:

- **Alignment with NEP 2020:** Skill subjects are designed to align with the vision of National Education Policy (NEP) 2020 for holistic education, preparing students for future studies, job markets and entrepreneurship.
- **Practical and Employability Skills:** Skill subjects focus on developing practical skills that are highly valued by employers, making students ready for the future.
- **Reduced Academic Stress:** Skill subjects offer engaging and application-based learning, reducing academic stress and making learning more enjoyable.
- **Career Exploration and Discovery:** Skill subjects allow students to explore different career paths and discover their interests and strengths.
- **Improved Scores:** By opting for a skill subject, students can potentially improve their Class X aggregate marks by replacing a low score, if any, in a core subject.
