

**DAV PUBLIC SCHOOL**  
BRS NAGAR, LUDHIANA

**Subject:** Implementation of **Mandatory Career Counselling** as per NEP 2020 & CBSE Guidelines

Dear Parents  
Namaskar!

We extend a warm and enthusiastic welcome to our students as they transition from Class VIII and IX into the pivotal academic years of Class IX and Class X, respectively. As a part of the critical secondary stage of schooling, these two years serve as the foundational bedrock that will define your child's academic profile and shape the entire trajectory of their future professional career

In alignment with the National Education Policy (NEP) 2020, CBSE has now made career counselling a mandatory component of the school curriculum. The objective is to provide expert guidance on higher education (India and global), skill development, and career assessment using a discovery-based approach that aligns a student's academic journey with their inherent talents and future aspirations.

### **Why Career Counselling Matters?**

- ❖ **Informed Decision Making:** Helps students move beyond traditional career paths and explore emerging fields.
- ❖ **Skill Mapping:** Identifies individual strengths, interests, and aptitudes at an early stage.
- ❖ **Reduced Stress:** Clarifies the path forward, reducing academic pressure and career-related anxiety.
- ❖ **Future Readiness:** Prepares students for the dynamic global job market by aligning their subjects with their goals.

### **Our Current Initiatives**

Our school has always been a pioneer in student development. We are proud to share that we have been consistently providing:

- ❖ **Career Conclaves:** Large-scale events featuring industry experts.
- ❖ **Expert Sessions:** Regular interactions with professionals from diverse fields.
- ❖ **Awareness Workshops:** Helping students understand various competitive exams and university requirements.

## **New Roadmap for the Upcoming Session**

To implement the CBSE directive with even greater rigour, we are enhancing our career counselling cell with the following features:

- ❖ **Psychometric Testing:** Scientific assessments to map students' personality, interest, and aptitude.
- ❖ **Personalized Guidance:** One-on-one sessions for both students and parents with our dedicated school counsellor.
- ❖ **Hired Professionals:** We are partnering with renowned career experts and agencies to provide specialized industry insights.
- ❖ **Nominal Cost:** To ensure the highest quality of professional tools and external expertise, these services will be provided at a very nominal fee. Specific details regarding the fee structure will be shared shortly.

We believe that a child's success is a result of a strong partnership between the school and the home. We request you to:

- ❖ **Encourage Participation:** Ensure your ward attends all scheduled sessions and tests.
- ❖ **Stay Involved:** Participate in the parent-counsellor meetings to understand your child's psychometric profile.
- ❖ **Support the Initiative:** Help us foster an environment where children can make informed and confident choices for their future.

Let us work together to empower our children to turn their passions into successful professions.

Warm regards

Principal
